

# LANNA

## LEADING THE WAY

Lanna is a beautifully designed and impeccably built resort-style apartment complex located in the heart of Koh Samui, yet hidden away enough from the hustle and bustle allowing for peace and quiet whilst oozing style and sophistication.

A contemporary and truly chic resort featuring beautifully appointed suites from designer studios through to decadent penthouses and a range of hotel facilities including a fusion cuisine bistro and cocktail bar, spa, fitness center, tennis courts and an oversized central swimming pool with hydrotherapy beds, Lanna packs a punch with both stunning aesthetic design elements and an overall 5-star resort experience.

As you enter Lanna, it is hard not to be wowed by the clean lines, simple and striking architecture and white and cream hues that blend seamlessly into the lush tropical surroundings. A fresh take on resort design, Lanna brings resort-style apartment living in to the next century with modern touches that err on the side of style rather than mere functionality.

The oversized natural stone swimming pool that greets you as you enter, has been stunningly designed and features in-built hydrotherapy beds and a shallow pool for families with children and surrounding the pool are plenty of shaded lounge areas. Further to the vast swimming pool, Lanna also boasts two full size tennis courts with tennis equipment available for hire and lessons upon request.

With a very directional chic and cutting edge feel, their rooms are beautifully appointed with all modern facilities you would expect from a high-end hotel and guests can expect the finest of everything - from the solid teak custom made furnishings, to the Sony

limited edition white flatscreen TVs, to the lavish in-room amenities from their own spa, right down to the Egyptian cotton towels and bed linen.

Lanna features a mix of 77 impeccably designed accommodation options - studio style junior suites, one bedroom master suites, two bedroom luxury penthouses and one truly decadent penthouse XL – something for everyone. Each room comes equipped with everything you would expect from a luxury hotel including a Chubb safe, hairdryer, robes and slippers and of course a well-stocked mini-bar. Every guests' favourite!

Not only is their design one of the best features, the facilities make this an all-round winner with The Secret Garden, their on-site spa and wellness center - the perfect place to de-stress, relax and pamper - offering a blissful menu of sumptuous spa treatments and special packages including traditional Thai and aromatherapy massage, deep cleansing and anti-aging facials, detoxifying body wraps and natural body scrubs.

For those looking to keep fit during their stay, the state of the art fitness studio at Lanna boasts impactful floor to ceiling glass windows so you can enjoy the stunning tropical view whilst going for the burn on their cardio machines. The fully equipped gym also has Life Fitness resistance machines imported from the US and collection of professional free weights.

If eating is more your thing, then Vanilla, their fusion cuisine restaurant and cocktail bar overlooking the pool and designed with no-less style and flair, offers fantastic signature dishes from Mediterranean favourites with a local twist, to fresh takes on Thai classics - all simply presented and made using the best, locally sourced produce.

Lanna has been designed with the discerning guest in mind who is looking for simplicity coupled with sophistication and luxury, giving you the best of everything Koh Samui has to offer.
